自傳

我出生於新北市五股區我住的是社區那邊還蠻偏僻的,我們家後面有條山路往那走可以到林口,但五股沒捷運就是了,家中只有3個成員爸爸和媽媽還有我,在這個環境下成長的我一開始是對廚師有興趣,因為我媽煮飯很好吃,但我到國中之後才發現我比較喜歡資訊電子,家中只有我一個小孩,雖然我可能沒有像其他人一樣優秀,但自己能找到出路已經不錯了.

I was born in Wugu District, New Taipei City. I live in a residential community that is quite remote. Behind our house, there is a mountain road that can lead to Linkou if you follow it. However, Wugu does not have an MRT line.

There are only three members in my family: my father, my mother, and me. Growing up in this environment, I was initially interested in becoming a chef because my mother is a very good cook. However, after entering junior high school, I realized that I prefer information technology and electronics.

I am an only child. Although I may not be as outstanding as others, being able to find my own path in life is already something worthwhile.
